Restoring the Balance

## Apple Cider Vinegar

A straight feedingstuff for horses, providing vitality and coat condition.

---

A natural product that has been used for a number of health reasons for many years.

Renowned for supporting reduced calcification of the joints, arteries, cleansing the blood and as an appetite stimulant.

All the natural goodness of fresh apple is preserved in cider vinegar, making it an excellent source of Vitamins A and C and good quality carbohydrates. The minerals present include calcium and phosphorus to maintain bone integrity and potassium and sodium for electrolyte balance. N.A.F. Cider Vinegar is therefore recommended for all round health and vitality, with particular benefit being seen in coat condition and can be used where there are early signs of joint stiffness. N.A.F. Cider Vinegar may also be used to regulate digestive pH, which, when not maintained at optimum levels may lead to digestive imbalances.
